Apex Collection flooring stars in
the Parade of Homes

AS THIS HOUSE WINS THE GRAND PICK OF THE PARADE

FOR FLOORING RETAILERS

Importer pricing, one box at a time.

Noah Banks Flooring supplies engineered white oak and rigid core to independent retailers. We own our mills, so you buy closer to the factory than you can from a distributor — without taking a container to do it. The line runs from a rental-grade rigid core up to **Apex**, a 3/4" plank and a parquet program placed by invitation.

One box MINIMUM ORDER	1–5 days KANSAS CITY METRO	3–5 days MIDWEST	30 colors THREE STOCKED LINES
---------------------------------	--------------------------------------	----------------------------	---

Stocked in Kansas City

No pallet break and no container commitment. Order a single carton and have it this week.

One color program

The same ten stains run across all three stocked collections, and most of them carry up into Apex — one color story, four constructions.

Compliant for US import

FloorScore, CARB Phase 2 and EPA TSCA Title VI. The certification marks are printed on every carton.

Container direct when you grow

Mixed containers are standard — multiple colors and collections on one proforma, whenever the volume justifies it.

A top end to sell up to

Apex is 3/4" on a 4 mm wear layer, with a parquet line in herringbone, chevron and three squares. Cut to order, by invitation.

Samples and a display

Two floor units and twenty boards for the showroom, and physical samples of any color on request.

LVP

Endure

LUXURY VINYL PLANK • RIGID CORE SPC

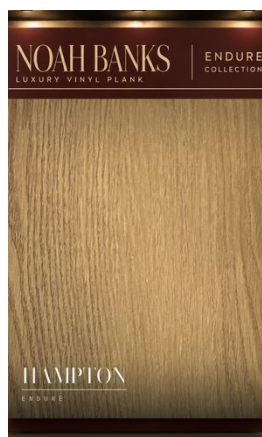

Waterproof rigid core with the pad already attached, in the same ten colors plus four of its own. The line that answers a basement, a rental turn or a wet room without changing the look of the floor.

CONSTRUCTION	SPC rigid core, 1 mm IXPE pad attached
THICKNESS	6 mm (pad included)
WIDTH	7" (180 mm)
LENGTH	48" (1220 mm)
WEAR LAYER	12 mil
FASTENING	2G click
COVERAGE	23.65 sq ft per carton
WARRANTY	50 year residential (15 year commercial)

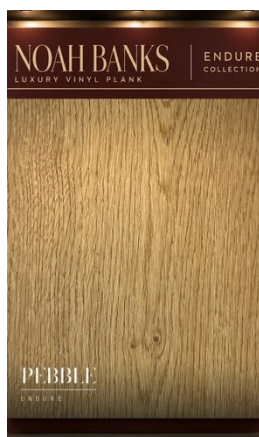

COLOR RANGE

Hartley

Endure is the one line that runs outside the ten-stain program. Four more colors sit alongside the range above — **Keystone**, **Cortez**, **Norfolk** and **Aged Barnwood**. Samples on request.

GOOD

Genesis

ENGINEERED WHITE OAK · 3/8"

At 3/8" it meets an existing floor close to flush, so a remodel does not turn into re-cut doors and ramped thresholds. A 32 sq ft carton is fewer boxes up the stairs, and it closes the bid that will not carry a 1/2" floor.

SPECIES	White oak
CONSTRUCTION	Engineered
THICKNESS	3/8" (9.5 mm)
WIDTH	6.5" (165 mm)
LENGTH	71" (1800 mm)
WEAR LAYER	1.2 mm
FINISH	UV cured urethane
FASTENING	Tongue & groove
COVERAGE	32 sq ft per carton
WARRANTY	25 year residential (5 year commercial)

BETTER

Origins

ENGINEERED WHITE OAK · 1/2"

A 2 mm wear layer takes a full sand and recoat, so it sells to the customer cross-shopping solid oak and outlasts the first owner. The line for a main level, a great room, a house somebody means to keep.

SPECIES	White oak
CONSTRUCTION	Engineered
THICKNESS	1/2" (12 mm)
WIDTH	7.5" (190 mm)
LENGTH	75" (1900 mm)
WEAR LAYER	2 mm
FINISH	UV cured urethane
FASTENING	Tongue & groove
COVERAGE	23.31 sq ft per carton
WARRANTY	25 year residential (5 year commercial)

Apex

Three quarters of an inch, on a **4 mm wear layer** — twice what Origins carries. Origins takes a refinish; Apex takes several. That is the whole argument, and it is the one that closes a floor meant to outlast its first owner.

At **9.5" wide and 87" long** it is the plank an architect draws on a plan and a dealer then cannot source locally. Offered to established accounts only, and placed deliberately — not in every market.

SPECIES	White oak
CONSTRUCTION	Engineered
THICKNESS	3/4" (18 mm)
WIDTH	9.5" (240 mm)
LENGTH	87" (2200 mm)
WEAR LAYER	4 mm
WARRANTY	25 year residential (5 year commercial)

COLORS

APEX	SAME STAIN IN ORIGINS
Greenwich	Bungalow
Hartford	Linden
Natural	Shore
Exeter	Dune
Kingston	Driftwood
Loft	Apex only
Vintage	Apex only

A showroom already displaying the Origins program is most of the way to displaying Apex. **Custom stains are run to order** — the floor on the cover of this book is one of them.

Parquet

Five shapes on the Apex build — the same 3/4" thickness and 4 mm wear layer as the plank — in one finish for the whole line: **Natural**, the Shore stain, under a clear coat.

It is a shape range, not a color range. One finish keeps a parquet floor and the plank running out of the same room in step, which is how these are specified: a feature in the entry, plank through the rest.

And the finish is not the end of it. On a 4 mm wear layer the parquet **sands and takes a different stain in place**, so a job that wants a color the line does not carry is still a job you can quote.

SPECIES	White oak
THICKNESS	3/4" (18 mm)
WEAR LAYER	4 mm
FINISH	Natural, clear coat
LEAD TIME	Cut to order
WARRANTY	25 year residential (5 year commercial)

SHAPES

SHAPE	PIECE	NOTES
Herringbone	6.5 × 32.5"	Square ends, set at 90°
Chevron	6.5 × 36.5"	Mitred ends, point to point
Parquet No. 1	32 × 32"	Assembled square
Parquet No. 2	32 × 32"	No. 1's square, different layout within it
Parquet No. 3	10 × 10" and 24 × 4"	Two pieces, set together

Pattern drawings, layout sheets and waste factors go out with the quote. Parquet carries more waste than plank — price the job off the layout, not off the square footage.

Unfinished

WHITE OAK • THREE BUILDS

Three constructions you already stock, delivered for a floor that is finished in place — the job that has to match an existing floor, or a color nobody carries. Each one is an Origins, Genesis or Apex board; the construction is the same, the surface is what changes.

	UNFINISHED	UNFINISHED SAW MARK	PREMIUM UNFINISHED
Built to	Origins	Genesis	Apex
Thickness	1/2" (12 mm)	3/8" (9.5 mm)	3/4" (18 mm)
Width	7.5" (190 mm)	6.5" (165 mm)	6.5" or 7.5"
Length	75" (1900 mm)	71" (1800 mm)	—
Wear layer	2 mm	1.5 mm	4 mm
Surface	Smooth	Saw marks	Smooth
Finish	None — site finished	None — site finished	Natural, finished in Shore

Unfinished and **Unfinished Saw Mark** ship bare and are sanded and finished on site. On the Saw Mark the mill marks are the visual finish — they are left in the board rather than sanded out, so the floor reads hand-worked once it is coated.

Premium Unfinished ships finished, in Natural. It also comes in **chevron**, 6.5" wide. On a 4 mm wear layer it **sands and takes a different stain in place**, so the dealer who needs a color the line does not carry can still quote the job.

COLOR PROGRAM

Ten stains, three constructions

Each row is one color. A customer who chooses it in the showroom can have it in rigid core, 3/8" engineered or 1/2" engineered — three price points, same floor. The customer who loves the color but not the number changes construction and keeps the floor they picked.

ENDURE	GENESIS	ORIGINS
Trinidad	Plymouth	Bungalow
Hampton	Haven	Linden
Pebble	Cedar	Shore
Sutton	Grove	Dune
Camden	Harbor	Flint
Alden	Windsor	Driftwood
Weston	Chestnut	Antique
Prescott	Hudson	Saddle
Langley	Parchment	Burlap
Hartley	Jameson	Nantucket

Physical samples of any color ship on request.

Apex reaches into this program too, under its own names — the Apex page lists each color against its Origins equivalent.

How dealers order

Everything ships from Kansas City stock. There is no pallet break and no container commitment — order a single carton if that is what the job needs. Dealers running volume move to container direct, where mixed colors and collections travel on one proforma.

CONTAINER DIRECT	PALLETS	PER PALLET	PER CONTAINER
Engineered wood	24	1,399 sq ft	33,573 sq ft
Endure rigid core	18	1,182 sq ft	21,269 sq ft

Nominal 40' high-cube loads; actual counts vary slightly by color and carton.

Trim, moldings and vents

- T-molding
- End cap
- Reducer
- Stair nosing

Solid white oak for Origins and Genesis, and a rigid profile for Endure. 2440 mm (96") lengths, matched to the floor they trim. Apex trim is quoted with the floor.

Flush vents in seven sizes — 2×10, 2×12, 4×10, 4×12, 6×10, 6×12 and 6×14" — finished to the ten-stain program.

Display program

- Two floor units, twenty boards
- Ten Origins stains, ten Endure
- 50" of wall, 16.5" deep
- Genesis shown on a spec card

Warranty

Apex, Origins and Genesis — **25 year residential**, 5 year commercial.

Endure — **50 year residential**, 15 year commercial.

Full warranty and installation documents, mill test reports and species declarations available to dealers on request.
